

Assembly instructions

IN031 Rectangular Textile Desk 80 Type 2

The contents of the package:

- A. Carry bag: 1 pc.
- B. Wooden tops: 2 pcs.
- C. Aluminum tubes: 4 pairs.
- D. Desk customization: 1 pc.

1. Take the wooden top provided with two inner cutouts and place it on the floor, with the white side up.

2. Take a pair of aluminum tubes: insert each tube into its pair by pressing the button until it is inserted into the free hole. Proceed in the same way until you mount all four tubes as shown in the picture no. 2.

3. Take one aluminum tube thus formed and insert it into the plastic support on the counter by twisting left or right so that the button on the tube is fixed in the groove as in image no. 3. Proceed in the same way until all four tubes are fixed in the top.

4. Turn the assembly thus formed with the top up as in image no. 4.

5. Place the desk customization on the outside of the assembly's aluminum tubes as shown in the image. Make sure that the customization is positioned in the same direction as the formed assembly, i.e. with the bottom side up.

6. The personalization of the desk is provided with a silicone strip that must be inserted into the perimeter groove on the counter. Make sure the customization is positioned correctly by aligning the customization seam with the cutout on the tabletop.

The pictures are for presentation purposes only. Your product may be slightly different.

7

8

7. Continue to insert the silicone strip into the perimeter groove around the countertop until it is completely inserted, as shown in the image.

8. Place the second wooden top on the floor, with the white side up.

9

10

9. Position the assembly consisting of wooden top, aluminium tubes and personalization over the second wooden top and fix the aluminium tubes like in step no. 3. Turn over the assembly thus formed.

10. Lift the personalization from the bottom up, twist the silicone strip under the fabric until it is no longer visible and insert it into the perimeter groove on the counter until it is completely fixed. Make sure the personalization is positioned correctly by aligning the personalization seam with the cutout on the wooden top.

For the Desk version with the lighting option, insert the plug corresponding to the power cable into the socket.

Now the Rectangular Textile Desk is ready for display.
